

# How to use this guide:

**1** Look up the cc, model and year of your vehicle on the application pages that start on **page 11**.

## EXAMPLE:

| <b>MOTORCYCLE</b>  |                  |         |             |                   |             |              |
|---|------------------|---------|-------------|-------------------|-------------|--------------|
| cc  | Model            | Year    | Premium AGM |                   | CB Series   | Conventional |
|   |                  |         |             | SPECIAL ORDER     |             |              |
| 1200  | GL1200 Gold Wing | '84-'87 | GTX18L-BS   | <b>GTX24HL-BS</b> | C50-N18L-A3 | —            |

**2** Find the batteries that fit your vehicle.  
See **page 1** for the differences between these battery choices:

Premium AGM    CB Series    Conventional

**3** Need more information?  
See **pages 6-9** for:

- dimensions
- weight
- Amp Hour rating
- polarity
- terminal configuration
- specifications
