

MESA 98 SERIES UPGRADE

SUPER LONG LIFE

POWERING YOUR WORLD

MESA CABINET UPGRADE KIT.

MESA 2

MESA 4

MESA 6

INCREASES BATTERY CAPACITY BY UP TO 47%

EASY TO INSTALL 12 VOLT SOLUTION

Replaces Expensive & Cumbersome 6 Volt Batteries in Mesa 98 Series and pre-98 Cabinets

GS Battery's MESA 98 Series Cabinets Installation Kit is an easy to use upgrade for existing MESA2, MESA4, MESA6 series 98 and pre-98 cabinets. The kit is compatible with both the new and old style drawers (1 or 8 battery connectors) and upgrades the batteries, battery wiring, and includes a new cabinet battery diagram for the inside of each drawer.

Each kit upgrades a single drawer with 8 batteries of either the PYL12V80TT (2 strings @ -48V, 160Ah) or PYL12V90TT (2 strings @ -48V, 184Ah) for an up to 15% increase in battery capacity. A Task Oriented Procedure with detailed instructions for either drawer model is also included.

Batteries of the PYL product family are long life, VRLA batteries that are UL94 V-0 flame retardant, SR-4228 compliant, and UL recognized.
